

SafeAssign Release Notes: Sep 2013

Release Information

Launch Date: September 6, 2013

Supported Platforms: All Blackboard Learn 9.1 Service Packs (SPs)

An update of the SafeAssign services and Building Block has been released for Blackboard Learn 9.1. This update resolves several issues.

Resolved Issues

- Adult Content not filtered out during SafeAssign Web Search
- Submitted paper gets deferred when a collected URL contains an empty document.
- Instructions are not displayed in the View Safe Assignment page
- When a paper submitted through Direct Submit fails while being converted, the instructor does not receive an error message
