Ally Instructor & Student Surveys
For insight into accessibility and Ally on your campus

Overview of surveys

This document includes links to three surveys. They are designed to help inform your communications and training strategies with instructors and students, and to track changes in usage and attitude toward accessibility. You are free to remix and modify these surveys for distributing to your campus.

You can preview a survey or make a copy for yourself to modify at the links below.

Accessibility awareness survey for faculty:

Distribute to faculty before Ally roll-out to gauge instructor knowledge, practices, and attitudes toward accessibility for all learners.

Ally feedback survey for faculty:

Distribute to faculty after Ally Instructor Feedback has been turned-on in their courses. Use this survey as a follow-up to "Accessibility Awareness" survey.

> **Ally feedback survey for faculty Copy**

Ally feedback survey for students:

Distribute to students after Ally alternative formats have been turned-on in their course. Use this survey for insight into students' preferred devices and study habits as well as their usage of Ally alternative formats.
